

Evening Journal Club Guidelines

1. Confirm your presentation date on the website.
2. We usually meet at 6:30 pm with presentations starting no later than 7:00 pm, but please be there promptly at 6:30. The location will be announced but will be sponsored by one of our gracious UT attendings.
3. Journals: Hala Alshayeb will be in charge of picking the articles that you will present. She will send them to you and the attending that will be present and everyone will confirm that the articles are appropriate. This should be done at least 2 weeks prior to your presentation date.
4. Once articles are selected and confirmed, then email the PDF versions of your articles to Karey Conlee (kconlee@utmem.edu) so that she can post them to the website for everyone to print off prior to your presentation (if the chiefs have not done this for you already). This should be done preferably at least one week before your presentation date.
5. Each article presented should take 3-4 minutes.
6. Suggested format for reporting to the group:
 - a. Journal, title, author, institution
 - b. Methodology - study design, participants, intervention
 - c. Analysis - results, conclusions and applicability, problems (bias, stats, power), and audience questions and discussion

This should be a fun and educational event for everyone so don't get worked up. If you have further questions then feel free to ask the MedChiefs at 448-7550 or medchiefs@utmem.edu.

Thanks,
MedChiefs
