

Noon Journal Club Guidelines

The presentation will be a noon conference held in the Coleman Building with the room TBA. Dr. Connelly will be the moderator and will supervise the process.

An article will be provided to the presenter in advance and posted on the website. The presenter will quickly go over the background, design, and methods and focus on the results. The Powerpoint presentation should revolve around answering questions 8, 10, 11 of the worksheet and the main results/tables/graphs of the study. Dr. Connelly will assist the presenter in creating the proper presentation and the presenter should be in contact with her at least a week prior to the presentation. She can be contacted at office #448-5927 or pager 777-9112.

For those attending the journal club, you should read the article in advance and be prepared to fill out the worksheet which will be provided at the conference. The submitted worksheet will count as your attendance. The goal is to help residents understand proper statistical/epidemiological analysis of articles.

Thank you and we look forward to hearing your presentation.

-Chief Residents
