

## Patient Medication Assistance Program (PMAP)

1. What is PMAP?
  - PMAP is a program organized by the Medplex pharmacy that is available for self-pay patients. It is coordinated through drug manufacturers and provides brand name medications at little to no cost to the patient based on income level.
2. How do patients apply for PMAP?
  - Applications provided to patient by Medplex pharmacy or ambulatory staff pharmacist
  - Patients must bring in completed applications AND required proof of income, foodstamp letter, check stubs, etc in order to be enrolled (a completed application alone does not count)
3. How long does enrollment take?
  - 4-6weeks
4. How can my self-pay patients receive medication now?
  - Medplex pharmacy offers a payment plan based on income and number of household individuals as long as the medication is a formulary item (the patient will be charged full price for non-formulary items)
  - The Medplex pharmacy will use samples as available until drug manufacturer sends stock
5. How do I know what medications are available on PMAP?
  - List of PMAP medications is located on the Med Intranet (<http://intranet/themed/>) or contact outpatient pharmacy at 5-6299

For further assistance contact Gale Hamann, Jennifer Campbell, Christa George, or Kristie Ramser.
