Courses and orientation programs may change at anytime as agencies decide not to provide offerings or to add offerings. Agency requirements for the course are based on the agency/facility requirements. Any prospective employer may submit an outline of a comprehensive orientation program for you for Board approval.

Please contact the Board of Nursing regarding your licensure status as you must have a current inactive license, or make application for endorsement to be made eligible to take a comprehensive orientation program or refresher course. The Board issues a Letter of Eligibility to be in an approved orientation/refresher program. Prior to issuing an active license following the course, we must have an application for an active license on file.
