

UTHSC Honors Reed Baskin, MD with Outstanding Alumnus Award

The University of Tennessee College of Medicine honored Reed C. Baskin, MD as an Outstanding Alumnus at the recent UT College of Medicine Alumni Weekend.

Reed C. Baskin, class of 1966, UT associate professor of medicine and director of the fellowship training program in hematology and oncology, had his vision of a University of Tennessee Cancer Institute come true in 2002. Dr. Baskin has served Methodist University Hospital and UTHSC with distinction for over 30 years. The UT Cancer Institute will carry on his passion – high standards of care and education. He was the director of the internal medicine residency program at Methodist Hospital from 1974 to 1984

and has been a member of the UT department of medicine in various capacities since 1972.

Following graduation from UTHSC, he served as research assistant to his mentor, Gene Stollerman, MD, chairman of the department of medicine. Subsequently, he completed an internal medicine residency at the City of Memphis Hospital and served for two years in the respiratory virology laboratories at the U.S. Centers for Disease Control and Prevention

in Atlanta. He returned to Memphis and completed his fellowship training in hematology and oncology.

Pictured, from left to right, are Dr. Pat E. Burlison, Baskin's brother-in-law, Dr. Reed Baskin and Dr. R. Phillip Burns, 2002 outstanding alumnus.

Ceremony will Honor Lichterman and Service Award Winners

A reception and program honoring the Thomas Connell Lichterman Employee of the Year and UTHSC faculty and staff with 25, 30, 35, 40 and 45 years of service will be held Thursday, Nov. 20 from 5:30-6:30 p.m. in the Lobby of the Plaza Buildings. The reception and program will be by invitation only and will include the Thomas Connell Lichterman Employee of the Year finalists and winner. Chancellor James Gibb Johnson, MD will host the annual event.

In addition, all employees with 5, 10, 15, 20, 25, 30, 35, 40 and 45 years of service will be receiving informa-

tion soon to select and order their individual award from a list of awards based on their years of service. Names of all service awardees will be included in a near future issue of *The Record*.

The Lichterman award finalists are:

- Anne Estes** - pharmacology
- Jimmy Trotter** - printing services
- Mary Mayhue** - transplant unit, UT Bowld Hospital
- Marolynn Finch** - preventive medicine
- Emily Barnes** - student affairs/student life

The winner will be announced at the ceremony.

The Thomas Connell Lichterman Employee of the Year Award is given to honor the memory of Tommy Lichterman, who was a messenger at UTMG and UT Health Science Center for eleven years, and in celebration of his dedicated and enthusiastic service.

This award is presented annually to a non-exempt employee who demonstrates the high standards and positive characteristics that were exemplified by Tommy.

The awardee receives a \$1,000 award and plaque. Also, the plaque in the Student Alumni Center will be updated with the name of the newest awardee.

A list of employees receiving service awards for 25 to 45 years is on page 6.

Mission Statement

The mission of The University of Tennessee Health Science Center is to improve human health through education, research and public service, with an emphasis on improving the health of Tennesseans.

The Record is published by the office of communications and marketing bi-monthly. The edition published on the first of each month is printed in hard copy. The mid-month edition is published online at www.utm.edu/record. Send all communications to: 320 Hyman. Phone: 448-4954. Fax: 448-8640.

The University of Tennessee is an EEO/AA/Title VI/Title IX/Section 504/ADA/ADEA institution in the provision of its education and employment programs and services.
EO7-0401-029-03 (1572)

Pictured, left to right at the UTHSC Center on Health Disparities (CHD) Founders' Meeting, are: Derrick Beech, MD, chair of the dean's advisory committee for CHD; Alicia McClary, EdD, CHD director of education and outreach; Cynthia Nunnally, MPH, CHD community relations manager; Hank Herrod, MD, dean of the College of Medicine; Robin Womeodu, MD, CHD medical director and interim executive director; Bettina Beech, DrPH, CHD director of public health research; and Beverly Williams-Cleaves, MD, member of the dean's advisory committee for CHD.

Schaberg Receives Laureate Award

Dennis Schaberg, MD, FACP, chairman of the department of medicine, received the Laureate Award from the American College of Physicians (ACP), Friday, Oct. 17, in Chattanooga, Tenn.

Dennis Schaberg, MD, FACP

The Laureate Award honors Fellows or Masters of ACP who have demonstrated an abiding commitment to excellence in medical care, education, research and service to their community, their chapter, and the ACP.

"Nominees are chosen based on long-standing acknowledged excellence and peer approval," said Henry G. Herrod, dean of the UTHSC College of Medicine. "We are very proud of Dr. Schaberg's recognition and the prestige it brings to our campus."

A native of Missouri, Dr. Schaberg earned his AB and MD degrees from the University of Missouri, Columbia.

He completed internship and residency training in internal medicine at the University of Washington, Seattle, followed by additional training in preventive medicine with the U.S. Centers for Disease Control and Prevention in Atlanta. He then returned to Seattle, where he served as chief medical resident and senior fellow in infectious diseases, before getting his first academic appointment at the University of Michigan.

He joined the UTHSC department of medicine as professor and chairman in 1993.

Dr. Schaberg is a Fellow of the Infectious Diseases Society of America. He is an active member of such organizations as the American Federation for Clinical Research, the American Society for Microbiology, the American Society for Clinical Investigation, the American Clinical and Climatological Association, the Accreditation Council for Graduate Medical Education and the American Board of Family Practice, Inc. He also served on the American Board of Internal Medicine.

People

The division of basic research at the UT Cancer Institute is pleased to announce the awarding of pilot grants to **Lorraine Albritton, PhD**, professor of molecular sciences and **Xin Zhang, DMSc**, assistant professor of medicine. The grants of \$40,000 each will provide resources aimed at eventually obtaining NCI-funding for the research projects.

Pauline Koh-Banerjee, ScD, assistant professor in the department of preventive medicine was the lead author of an article in the October 2003 issue of the *American Journal of Clinical Nutrition* that caught the attention of the *Washington Post*. The column is available at <http://www.washingtonpost.com/wp-dyn/articles/A59400-2003Nov3.html>.

Rennolds S. Ostrom, PhD, assistant professor in the department of pharmacology, was recently awarded a new R01 research grant from the National Heart, Blood and Lung Institute. The grant is titled, "Adenylyl Cyclase as a Regulator of Cardiac Fibroblasts."

George Cowan Jr., MD, professor of surgery in the College of Medicine was recently elected president of the American College of Nutrition at its Annual Scientific Meeting in Nashville. He is the first surgeon to hold this position in the 44-year-old organization. He was also honored with the Mark Bieber Award "In recognition of his outstanding academic contributions to the success of the National Nutrition Alliance of the American College of Surgeons."

Dr. Cowan has been a faculty member at UTHSC since 1982. He established the Obesity Wellness Center and the surgical endoscopy service, as well as nutritional support teams in several Memphis hospitals.

Barrett Haik, MD, Hamilton Professor and chair of ophthalmology, was recently appointed to the National Advisory Eye Council, which determines the direction of research and training for the National Institutes of Health and the National Eye Institute. The council's main function is to advise the Secretary of Health and Human Services, along with the directors of NIH and NEI, on matters relating to the support of research and training related to national efforts in vision research.

Donna Herrin, RN, MSN, CNAA, CHE, UTHSC assistant dean for Methodist Healthcare in the College of Nursing, has been named chair of finance for the American Organization of Nurse Executives.

Earlier this year, the UTHSC Institutional Review Board hired **Donna Holloway** in the new position of human research specialist.

In keeping with the responsibilities of the IRB, this position is intended to enhance protections for the rights and welfare of human research subjects. Federal regulations require the IRB to maintain oversight of research utilizing human subjects, including proper conduct and documentation of these activities. One component of oversight involves auditing research studies. Audits are intended to assist investigators in correcting any deviations from the requirements of local and federal policies for protecting human subjects.

The educational component of this position includes developing and conducting on-going training programs on research study conduct, regulatory issues, and IRB submissions.

If you would like more information on study audits or in-service programs, contact Holloway at 448-2933.

Congratulations

Bruce Holden, officer with Campus Police, was recently promoted to the rank of Sergeant.

G.D. Heda, PhD, assistant professor in the College of Medicine, and his wife, Rani, will celebrate their 25th wedding anniversary on November 22.

Lacretia McKinney, patient accounts specialist at the Jackson Family Practice Clinic, married Rodreques McKinney on October 18.

Melanie Byars, daughter of **Sherry Gooch**, assistant to the dean in the College of Allied Health Sciences, married Michael Howell on October 10.

J. Lee Taylor, exercise physiologist in the department of preventive medicine, married Ann Carson on July 26.

Leigh Stubbs, assistant director of advancement services in the office of development, gave birth to Ivey Scott Stubbs on August 8.

Ivey Scott Stubbs

News Bites

UT Cancer Institute members, postdoctoral fellows and graduate students will showcase their cancer-related research at a poster session in the lobby of the GEB at the upcoming **UTCI Research Day** on Tuesday, Nov. 18 from noon to 3:30 p.m. The purpose of this poster session is to showcase ongoing cancer-related research at UTHSC, and thus provide a platform for future interactions and organized programs under the direction of UTCI. The poster session will be followed by a lecture at 4 p.m. in room A102 of the GEB by Dr. Tom Curran, chair of the department of developmental neurobiology at St. Jude Children's Research Hospital. Dr. Curran's talk is titled, "From Brains to Brain Tumors: Development of Targeted Therapies for Medulloblastoma in a Mouse Model."

The American Heart Association will hold its **Sixth Annual Women's Heart Conference** on Saturday, Nov. 22 at the Park Vista Hotel, located at 939 Ridgeland Blvd., from 8 a.m. to 1:45 p.m. The keynote speakers will be Marilyn Robinson, MD, senior vice president of St. Francis Hospital, and Kenneth Robinson, MD, commissioner of the Tennessee Department of Health.

The Presidential Search Advisory Council and Search Committee are holding a series of open forums around the state of Tennessee relating to the search for a new university president.

The **Memphis presidential search forum** will be held in room A203 of the GEB on Wednesday, Nov. 19 at 3 p.m. Those attending will have the opportunity to offer comments on the qualifications and characteristics of the next UT president.

The forum will also be available in a live webcast through the UT office of information technology at <http://oit.utk.edu/dst/webevents.html>.

Holiday Safety Tips from Campus Police

If you will be out of town...

Have a trusted neighbor or family member check your home, turn on and off lights, and pick up mail and newspapers.

Have them park their vehicle or your vehicle in your driveway from time to time.

Remember, holidays are often times when we find ourselves busy, excited and sometimes a little less cautious.

It's during these times that the likelihood for criminal behavior increases. Let's strive to reduce criminal opportunity by remaining alert and aware of our surroundings during this holiday season.

Also, please note that a new emergency "help" phone has been installed at the south door of the 822 Beale building.

UTHSC will hold graduation on Friday, Dec. 5 at 1:30 p.m. in the Cannon Center for the Performing Arts at the Cook Convention Center. The university will graduate 96 students from the Colleges of Medicine, Dentistry, Pharmacy, Nursing, Graduate Health Sciences and Allied Health Sciences. Alfred Schweikert, PhD, a distinguished alumnus of the College of Graduate Health Sciences, will deliver the charge to the graduates.

The **UT Child Care Program** will hold its annual **Book Fair**, sponsored by Pinocchio's Children Book Store, from 1 p.m. on Monday, Nov. 17 through 6 p.m. on Friday, Nov. 21. The fair will be held in the Boling Center for Developmental Disabilities at 711 Jefferson. Attendees must use the Court Street entrance. All profits will be used to buy additional books for the Child Care Program.

Attention Graduating Students

- Please take a moment from your busy schedules to stop by 45 North Manassas to turn in your hangtags and gate cards.
- Any outstanding balances for parking fees or fines should also be handled.
- If your UTHSC student identification card has an expiration date of December 5, 2003, you may keep the card.
- If your expiration date **IS NOT** December 5, 2003, please return the identification card.

Consortium to Hold Conference on Health and the Economy of Mississippi Delta

A regional conference titled, "Health as an Economic Engine in the Mississippi Delta" will be held on Thursday, Nov. 20 from 8 a.m. to 5 p.m. at The Peabody Hotel in Memphis.

The conference's goal is to explore the role of improving the health of citizens of the Mississippi Delta as a necessary factor in enhancing the region's economy. This relationship between health and economic development has been demonstrated in international settings and has been promoted by the World Health Organization in developing countries. The conference will apply this relationship to the substantial health and economic challenges of the Delta region.

As will be discussed, health can improve economic development through improving workforce productivity, improving educational opportunities for children, reducing the shift of resources to healthcare and away from other soci-

etal needs, and enhancing the image of the region to investors. The conference will seek to form the basis for a research and demonstration agenda based on these concepts among the universities and businesses in the Delta.

Featured speakers will include:

- Mr. Patrick "Pete" Johnson, Federal Co-chair of the Delta Regional Authority
- Dr. David Bloom, Professor of Economics at the Harvard University School of Public Health and a major collaborator in the World Health Organization initiatives in Africa
- Dr. Claude Earle Fox, head of The Urban Health Institute at Johns Hopkins University and former administrator of the Health Resources and Services Administration, Department of Health and Human Services.

For additional information contact David M. Mirvis, MD at 448-5826.

Eddie Turner Named to AAFP Board of Directors

Eddie J. Turner, M-4 has been selected as a student member of the board of directors of the American Academy of Family Physicians (AAFP). The

Eddie J. Turner

AAFP represents more than 94,300 physicians, residents and medical students nationwide. Turner was elected to a one-year term by the National Congress of Family Practice Residents in August 2003.

As a student member of the AAFP Board of Directors, Turner is responsible for representing the interests and opinions of the National Congress of Student Members to the board and the Congress of Delegates.

Turner has been involved in the AAFP as a student representative to the

Commission on Legislation and Governmental Affairs and served as a student member of the board of directors of the Society of Teachers of Family Medicine. He represented the Tennessee Academy of Family Physicians (TAFP) as a student delegate to the TAFP board of directors.

Turner was the National Medical Association Family Practice Section's Minority Medical Student Initiative recipient in 2002. In 2001, he received the Minority Scholarship from the National Conference of Family Practice Residents and Medical Students.

Turner is founder and director of the LeMoyné-Owen College Health Professions Mentorship Program, which is designed to mentor students who are interested in entering medical school. He also served as a biology and natural science teacher for the Upward Bound after-school program for high school students.

The University of Tennessee Health Science Center

Roundup

FACULTY SENATE

In the absence of president Mansbach, president-elect K. U. Malik called the meeting to order at 4:00 p.m.

Introduction: President-elect Malik introduced the guest speaker, Chancellor Jim Gibb Johnson.

Chancellor Johnson stated that he appreciated the opportunity to speak to the Faculty Senate and would be happy to answer questions after his remarks.

Chancellor Johnson spoke on several different issues concerning the welfare of the university. He gave an interesting insight to each college.

Chancellor Johnson was happy to state that The College of Dentistry is rated as one of the top three dental colleges nationwide. It also has the lowest ratio of faculty and staff to students of any college of dentistry.

Chancellor Johnson said that there is only one state in the U.S. that did not cut higher education this year, which was Wyoming.

Chancellor Johnson informed the Senate that Senator Goldowitz and Senator Kang, as directors of Centers of Excellence, attended the UT Board of Trustees meeting, and asked Senator Goldowitz to give his comments about the meeting.

Senator Goldowitz stated that the feeling he perceived from Governor Bredesen was that he really cared about doing something better for The Univer-

sity of Tennessee. Senator Goldowitz said that at one point Governor Bredesen asked Gordon Gee, Chancellor of Vanderbilt University, what makes a good university. Without hesitation, Chancellor Gee replied, "the faculty."

Senator Kang said he was impressed that Governor Bredesen stayed through the whole Board of Trustees meeting. Senator Kang was also impressed that he seemed to understand what the Centers of Excellence directors were trying to tell him and left the meeting with a true respect for Governor Bredesen.

The issue of inviting Governor Bredesen to speak to the Faculty Senate was raised. Chancellor Johnson stated that he felt that the Governor would be happy to oblige, if his schedule will allow a short visit. Chancellor Johnson thanked Senators Goldowitz and Kang for their positive input. Senator Kotb asked if Governor Bredesen had a certain strategy of how he can help the university. Senator Goldowitz replied that the status of the University of Tennessee, in public perception right now, is at an all time low due to the "rotating door" of presidents and the happenings over the past two years. Governor Bredesen needs good news--he needs us doing good things, showing that we are coming up with new cures, educating minorities, etc.

Chancellor Johnson said he knew there were a lot of questions concerning the recent memo about incentive bonuses. He informed the senate that this was an issue for each individual college. He said he would support the incentive bonuses to continue, if the money was there. Dr. Mike Dockter stated there was a recent meeting of the advisory

committee and chairs. They do hope that the incentive bonuses will continue and will keep us informed.

There was a brief question/answer session. Chancellor Johnson again thanked the Faculty Senate for inviting him to speak.

Announcements: None

New Business: None

Old Business: None

Committee Reports

Budget and Benefits:
None.

Computing and Telecommunications:

Chairman Cindy Russell gave the following report: The committee has continued to meet the second Friday of each month. Some of the most recent items they discussed have included the following.

Campus Chief Information Officer

Executive Vice President Eli Fly has approved the hiring of a campus CIO, but only once some other campus issues related to the computing center are sorted out.

IP Registration

Our current registration for computers, printers and PDAs that are connected to the UTHSC network involves entering a social security number. The database of equipment connected to our network is outdated. The computing center is revising the IP registration process so that users will register with NetIDs and NetID passwords instead of social security number. There will also be an

annual revalidation of the registration. This system is, at this time, expected to be functional and launched within a week or so. Users will receive further details via e-mail with specific instructions once it is launched.

SAS and SPSS software

Vice chancellor Colson has agreed to centrally fund the licensing for SAS and SPSS software. Persons who use that software will purchase a copy of the media (CD ROM) but will not pay a license fee. There are a few details to work out, but we expect to see a message in the next week or so that provides details on obtaining the software.

Tech group

The computing center is working to identify individuals from colleges and departments who are known as the “go to” computing people within their divisions. Once these individuals are identified, they will be invited to join a listserv and attend a monthly meeting to discuss computing issues and distribute IT-related information in a timely manner. This is similar to the “LAN manager’s group” that has been quite successful in Knoxville.

Intellectual Property Sub-Committee:

Senator Nollan reported that he has yet to see the IP policy in *The Record*, but is still working on getting a web page on the library server on the IP policy.

Senator Nollan stated that he is planning on taking a TEACH Act workshop toward the end of the month or the beginning of next month, which will bring him up to date and he will be able to pass this on.

Educational Policy:

Senator Suttle and his committee have met and were briefed by Senator Richard Nollan on the recently approved policy on patents, copyrights and other intellectual property. In conjunction with this new policy, the committee also re-

ceived a report from Vicki Murrell regarding the development of a copyright policy for the Blackboard Info Web site. Guidelines for use of copyright material in electronic and distance learning need to be established in light of the recently federally enacted TEACH Act. The educational policy committee will be working to develop policies and coordinate methods to educate both faculty and students on copyright issues and the TEACH Act.

Faculty Affairs:

Senator Bhattacharya reported that his committee met and again discussed the possibility of faculty sabbaticals. The decision was assessed for each of the departments within each of the colleges to have a sabbatical policy in place. The off-campus assignment for faculty development would be the best.

Faculty Communications:

None.

Faculty Research:

Senator Cook reported that at the faculty research committee meeting, the old business of pay raises for technicians was discussed briefly. There will be no raises for technicians even when salaries are paid by federal grant money.

The Chancellor sent draft policies on research data and on tangible research property to the research committee for review. Both of those essentially say that since the university is responsible for the accuracy of faculty research data, UT owns the research data. If a faculty member leaves UT and goes somewhere else, UT can take the original notebooks, computer disks or whatever medium the data is recorded in. There is no limit to the length of time that UT can keep the data.

The research committee also discussed UT Research Foundation. The UTRF does have a CEO. It is being recommended that if we have a research grant that needs to be submitted, it should

not go to the Research Foundation unless there is a problem that will not allow it to go through UT. If there is a problem with sending the grant proposal through UT, it should be sent through the foundation.

Legislature Resource Group:

None

The meeting was adjourned at 5:10 p.m.

The next Faculty Senate meeting will be held Tuesday, Nov. 11, 2003, GEB A202

Campus Calendar

NOVEMBER 15 - DECEMBER, 2003

- 14-16** UTNAA Board of Governors Meeting
Marriott, Knoxville
- 17** “Nonenveloped Viruses and Membrane Fusion: Basic and Applied Aspects”
